Chiesa dei Santi Pietro e Paolo
Galatina

Introduzione

Galatina e dintorni

Il primo documento storico che parla di Galatina è un atto notarile del 1178 in cui viene citato il "casale Sancti Petri in Galatina". La tradizione vuole infatti che l'apostolo San Pietro si fermasse in questo luogo nel suo viaggio da Antiochia a Roma. Solo dopo l'Unità d'Italia, nel 1861, la città riprese il suo nome originario di Galatina.

Azienda

Fondata nel 1948

L'azienda nasce nel 1948, in una stradina di Galatina nel cuore del Salento, dall'operosità dei fratelli Marra che imparavano la difficile arte del maestro decoratore impastando con acqua elementi come cemento bianco, graniglia fine di marmo e pigmenti colorati, che ancora oggi caratterizzano la loro produzione. Oggi l'azienda, situata in un moderno impianto e guidata dalle nuove generazioni, riesce ad unire un design più ricercato alla forte tradizione di stile e tecnica artigianale dei suoi fondatori.

I pavimenti e rivestimenti realizzati privilegiano l'impiego di materiali selezionati e ricercati, dando garanzia di massima qualità e durata nel tempo.

Le Cementine

Melodie cromatiche

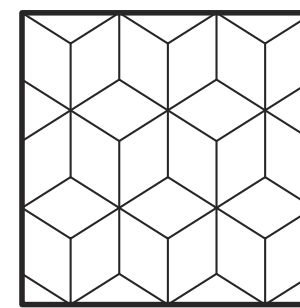

Collepasso

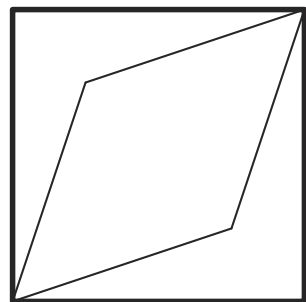

Le cementine o pastine di cemento, sono mattonelle a più strati e nascono alla fine '800. La parte inferiore delle cementine è composta da cemento ad alta resistenza ed inerti, lo strato superiore è formato da polvere di marmo, cemento bianco e pigmenti inorganici colorati.

Le nostre cementine sono fatte ancora come una volta, realizzate a mano una ad una. Nel catalogo sono presentati vari modelli ma attraverso l'utilizzo di matrici è possibile creare infiniti disegni con colori diversi, anche su progetto.
